## PROFILE

---

Motivated and hard-working full-stack software and web developer, with project experience using PHP and Javascript. Able to master new software and concepts quickly and deliver results.

## PROJECTS

---

- **Ecommerce website** ([site](#)) - Designed ecommerce site to populate names of products and prices; includes end user filter and page viewer and Administrative profile. Built using MySQL, PHP, Bootstrap, and MVC design pattern.
- **Map App** ([gh - pages](#)) - Developed a Google Maps/Wikipedia data mashup where a user can search a topic, markers appear on a map with a listing of locations, and the user can click a location to open a Wikipedia link about that location. Used JavaScript and jQuery to make Ajax calls to the geonames API and the Google Maps API.
- **Photo App** ([gh-pages](#)) - Built a photo viewing app using reactjs, Ajax and Bootstrap along with the Flickr API to display images unique to a user's search request.

## EDUCATION

---

**The School of Evolving Technology**, Lakewood, NJ (2015 – 2017) Teitelbaum

Software Web and Application Development Course

Completed an intensive and comprehensive program focused on developing critical, real-world web and application programming and design skills. Completed biweekly coding exercises. Developed practical applications in HTML, CSS, JavaScript, jQuery and AJAX.
